DETAILED ACTION

Claims 1-20 are pending.

Claims 1-20 are allowed.

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with **Andrew J. Taska** on 04/10/2006 around 7:00 p.m.

The application has been amended as follows:

The claims have been amended as shown in the attached appendix.

Allowable Subject Matter

1. Claims 1-20 are allowed.

Reason for Allowance

1. The following is an examiner's statement of reasons for allowance:

The prior arts of record do not teach the following:

In regards to claims 1, 14 and 18 the prior arts do not teach a routing control system/controller/method for use in a network having a plurality of nodes,

nodes including at least one master node and at least two slave node, routing control system/controller/method comprising: a spanning tree producing portion provided in master node which produces a spanning tree of network based on connection information of network and which delivers spanning tree to each slave node whenever connection information is received; a memorizing portion provided in each of nodes which memorizes spanning tree delivered from spanning tree producing portion as a routing table; and a health check portion provided in each of nodes which sends connection information to spanning tree producing portion when a topology change of network is detected; wherein spanning tree comprises a representation of a topology of network and comprises connection information regarding at least one node that is not directly connected to master node.

The prior arts alone or in combination fail to jointly suggest or teach the claimed combination of features as taught by the instant application. Therefore claims 1-20 are to be deemed allowable over prior art.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Salman Ahmed whose telephone number is (571)272-8307. The examiner can normally be reached on 8:30 am - 5:00 pm.
